About Ohio National

What qualities do you seek from your insurance company? If you're like most people, you want *stability* – a company that's committed to being there for you through life's many changes. You also want *value* – quality products and services for your protection and insurance needs at a cost you can afford. That's what Ohio National is all about.

We can help

Term life insurance can serve your temporary needs. And, it is often the least expensive bridge to the longer-term protection available from more permanent forms of life insurance coverage. As personal or business situations change, you may choose to convert from term life insurance to an available permanent life insurance policy when it makes financial sense. Conversion options vary depending upon the type of term life insurance policy applied for and issued by the company. If you choose to convert your policy, you must do so by the date specified in the policy. Contact your adviser for details.

Your request for insurance

The application you recently completed is the first step in obtaining your term life insurance. The information you provide at each stage of the application process is kept in the strictest confidence as further explained in the Notice of Information Practices provided to you.

The telephone interview

In the next few days, a third-party representative of Ohio National will call and conduct a short phone interview. The interview will take about 10-15 minutes. Please have the following information available:

- Your driver's license number.
- Your physician's name(s) and address(es).
- The name(s) of any medication(s) you are taking.

At the completion of the telephone interview, our representative will ask you to schedule the necessary paramedical exam.

The paramedical exam

The examiner will ask you to provide a blood and urine sample during the exam and will record your blood pressure, pulse, height, and weight. An EKG may also be performed based upon your age and the amount of term life insurance for which you are applying.

At the time of your exam, you will be asked to sign the initial application and any other supporting documentation. These documents are the basis for any policy Ohio National may issue to you. Please review them carefully and record any necessary changes. The examiner will forward these documents to Ohio National along with the results of your paramedical examination.

What happens next?

After Ohio National receives the signed application and exam information, it will be reviewed by our underwriting team. Your adviser will then contact you with the decision.

If you have questions, comments or concerns about any part of this application process, please contact your adviser.

*Life changes.
We'll be there.®*
